ZONING PERMIT APPLICATION FOR FARM BUILDINGS AND STRUCTURES

AFFIDAVIT

I understand that this permit authorizes construction of a farm building not **used** for residential purposes. Such structures are exempted from the requirements of **USBC** as per **Section 100.7**. I understand that in order to qualify for this exemption, that **my** signature on this permit signifies my acknowledgment that the building constructed **will be** utilized strictly for bona-fide farm uses such as housing of livestock, storage of farm equipment which will be utilized for farming (ie: **tilling** of soil, harvesting of crops) and/or storage of farm products. Structures intended to house lawn and garden equipment and/or automobiles do not qualify for this exemption, nor do structures located **in a** flood plain.

I understand that it is the responsibility of the person obtaining **this** permit to insure adherence to all applicable zoning ordinances and building codes.
